

A paste to wall product

Paste to wall wallpaper is a special paper which only requires you to paste the wall and hang the paper. This type of paper is a great option if you want to decorate quickly and easily as no pasting table is required and you don't need to wait for paste to soak into the paper before it is hung.

What you will require:

- Step Ladder
- Wallpaper adhesive
- Pasting Brush
- Plumb Line
- Trimming knife
- Wallpaper scissors
- Paper hanging brush

How to remove the wallpaper in the future

You can easily peel off paste-the-wall wallpaper when you want to redecorate. From the base of the wall, lift a corner of the wallpaper and peel upwards. No soaking time or steaming is required.
